Before we begin

For this codelab, you need a laptop with an operational Flutter environment :

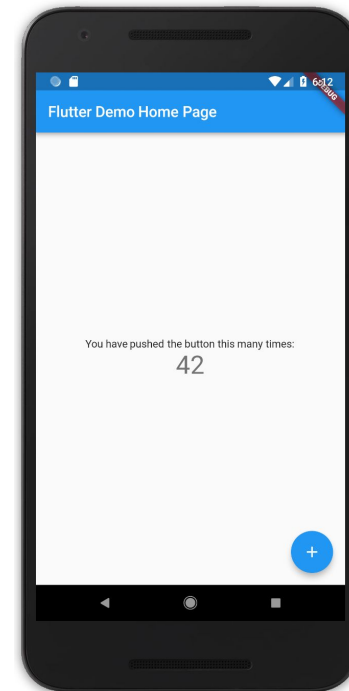

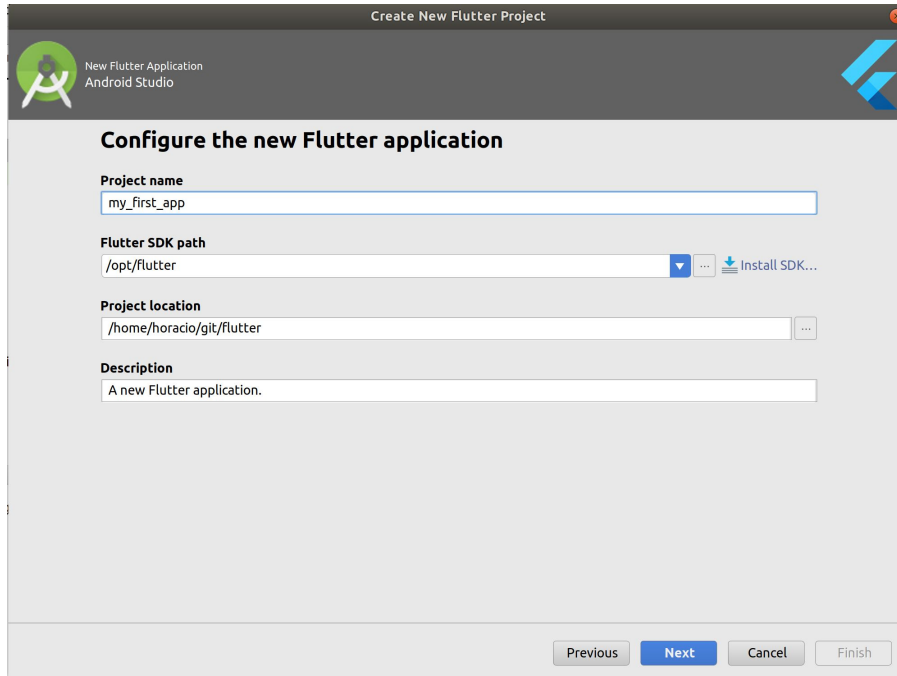

- <https://flutter.io/docs/get-started/install>
- <https://flutter.io/docs/get-started/editor>
- <https://flutter.io/docs/get-started/test-drive>

If you get this =>
It's OK 🙌

If you don't, find a pair !!!

Testing your install

Create and test your first app

<https://flutter.io/get-started/test-drive/>
